Experience

ARRIVAL (2020-Present)
Product Experience Designer

Worked across the entire End-2-End experience of Arrival's product portfolio from concept right through to production. Delivering strategic direction & defining specific multi-modal interactions.

- Co-designed every 'On & Off vehicle experience' of the Arrival Bus & ensured successful delivery to production
- Led the design of Arrival's Product Demo Experience
- Pioneered the use of AR in the company
- Took part in 400+ hours of User Research
- Represented Arrival at the Global Investment Summit

IBM Cloud, Data & AI (2018–20)
UX Design Intern + Extended contract

- Designed new features & improved usability for the Cloud Integration Portfolio
- Co-founded an internal design system for the portfolio
- First contributor of UX Patterns to the Carbon Design System
- Design Lead of IBM's Internal Performance Review website

Schréder (2017)
Design Intern

Designed solutions for a range of Luminaires. Led research, participated in internal testing, & made large-scale orders on behalf of the company.

Adidas Group (2015)
Design Intern

3D Development & Concept Visualisation. Led product photoshoots of apparel & Olympic Teams.
